DUROBOR IN FEW WORDS

INNOVATION, DESIGN AND EXPERTISE

Durobor ® was established in 1928, as the first company to introduce the automated process of manufacturing drinking glasses in Europe. Today, Durobor ® continues in the same spirit of innovation, with its philosophy of “market pioneer”, and stands out as a designer, producer & concept leader not just as a manufacturer.

The well-known innovative design of Durobor ® glasses is adapted to their use and to meet the requirements of the professional sector: an ultimate combination of attractiveness and functionality.

UNIQUE & SPECIFIC DESIGN

Adapted to the professional sector:
While looks are always important,
no line is without a practical advantage

STRONGER RIM

The specific burn off system of
Durobor® gives all the resistance to
the part of the glass where most abuse
occurs : the rim.
The bead obtained by the cutting
process of Durobor® reduces
substantially the risk
of breakage at the edge.

BEER EXPERTISE

BY DUROBOR

The tasting of a beer is first and foremost appreciating the smell and the taste. The shape of the glass is essential in the perception and evaluation of the complex aromas of the beer. Indeed, the shape of the glass allows you to appreciate 90 % of a beer.
